

The Weller Center Presentation

“Life Begins”

Parent/Guardian Preview Program

The Weller Health Center is one of the region’s primary health education resources for schools and organizations. The Weller Center helps children make healthy life choices through preventive health education.

“Life Begins” is an awareness assembly being offered to all 5th grade students to support and supplement the health curriculum. The presentation focuses on human growth and development where students demonstrate knowledge of the individual differences associated with these changes. Parents/Guardians of 5th grade students are invited to preview this program. The presentation of “Life Begins” will be shared with your child in the spring. **This preview night is for parents/guardians only.**

Wednesday, February 20, 2019 (snow date, February 27, 2019)
